

ALGAECIDE WP D401

Designed for hot tubs, spas, and swimming pools, it destroys algae and prevents further growth.

BENEFITS

- Can be used as a shock treatment
- Can also be used to prevent algae growth
- Suitable for indoor or outdoor swimming pools, spas, and hot tubs
- Suitable for bromine and chlorine users.

PRODUCT SIZES

- 1 litre

DESCRIPTION

Our Algaecide is specifically designed for treating hot tubs, spas and pools. It can be used as a shock treatment for when algae is already present, or regularly to prevent algae growth.

Algae can cause the water to turn green. Whilst not typically harmful to humans, it can quickly bloom and make the hot tub, spa, or swimming pool unattractive for use.

INSTRUCTIONS FOR USE

Algae present:

Shock dose with 20 ml (3¹/₂ teaspoons) per 1000 litres of water.

Prevention of algae growth

Add 2.5 ml (¹/₂ teaspoon) per 1000 litres of water each week to help prevent future growth.

PHYSICAL PROPERTIES

Colour: Colourless

Appearance: Colourless watery liquid

Odour: characteristic

Solubility: completely miscible

Boiling point: No data available

Flash point: No data available

Flammability: Non - flammable

Density: No data available

pH solution: No date available
